

FREEDOM TO CHOOSE CAM FOR FARM ANIMALS & PETS

We are CAMpaigning to secure Complementary & Alternative Medicine (CAM) as a first-choice treatment option

The Royal College of Veterinary Surgeons' Council statement now restricts us and our vets to using CAM after, or in combination with drugs, never as a first-choice.

This affects the use of homeopathy and herbs in farm and companion animals.

PROTECT YOUR FREEDOM OF CHOICE

to sign the petition!

HOW DOES THIS AFFECT YOU?

RCVS threatens the legality of homeopathy and complementary & alternative medicine for farm animals & pets.

Farmers who use homeopathy and herbs to keep their animals healthy benefit us ALL with:

- fewer antibiotics
- healthier animals
- healthier food
- protected environment
- high animal welfare
